The Pro-Ozone Machines

making your personal environment cleaner and safer...

Due to the COVID-19 situation, people are more aware of the need for constant sanitization in all of their environments including their vehicles to keep themselves and their families safer from virus and bacteria. Our range of machines offer an easy answer to conveniently clean the vehicle interior in the matter of minutes. This same principle can be applied to sterilizing offices and other locations. The Pro-Ozone state-of-the-art machines are portable units which generate Ozone (O3). O3 is a proven method for eliminating the presence of pathogens such as viruses like SARS and MERS, and even anaerobic bacteria (the stuff that can survive even without oxygen). O3 effectively kills the organism, however it is important to maintain the standard preventative cleaning methods. Our machines will deliver a completely different, secure and less labour-intensive approach to safe working practice.

Commercial Opportunity

Using Ozone as a form of sanitization is not a new concept, however, it has now become a sought after service by vehicle owners. A quick and simple service of the interior cabin of the vehicle can lead to a deep sterilisation of the surface areas. The application of this machine is not only limited to vehicles but can be used for boats, homes and office locations to name but a few.

Applications:     

Benefits of a Pro-Ozone Service

- Reduce Harmful bacteria/ viruses
- Create a clean/ safe environment
- Eliminate odors/ bad smells
- Quick Service time under 1 hour (vehicles- start to finish)

Our Machines

The Pro-Ozone generator uses a honeycomb ceramic material discharge unit, which effectively increases the area of ozone release. Combined with a powerful turbo fan to increase the output flow, the ozone can be distributed throughout the entire space faster for sterilization and disinfection. As well as the all-stainless steel body design, it is lightweight and at the same time enhances shock resistance, drop resistance, and corrosion resistance. We have 4 machines in our range to suit all types of situations.

How it Works

ROI Potential

Pro-Ozone 14

PZ14

Product Description

Our entry level machine is a great way to introduce a sterilization service to your automotive clients. Can also be used for small spaces up to 35SqM.

Product Specification

Model	Pro-Ozone 14
Rated Voltage	AC 220V
Rated Power	70W
Ozone Output	3.5g/Hour
Net Weight	2kg
Package Dimensions	250mm x 160mm x 200mm

Settable times: 1 - 60 Minute Adjustable

35m²	30 Minutes
25m²	20 Minutes
15m²	10 Minutes
8m²	6 Minutes
Car	5 Minutes
Storage Box	3 Minutes

Pro-Ozone 16

PZ16

Product Description

Similar to our Pro-Ozone 14 model but increased O3 output meaning the same areas can be disinfected in a quicker time providing more commercial value.

Product Specification

Model	Pro-Ozone 16
Rated Voltage	AC 220
Rated Power	100W
Ozone Output	5g/Hour
Net Weight	2.6kg
Package Dimensions	370mm x 210mm x 310mm

Settable times: 1 - 60 Minute Adjustable

35m²	25 Minutes
25m²	15 Minutes
15m²	10 Minutes
8m²	6 Minutes
Car	3 Minutes
Storage Box	2 Minutes

Pro-Ozone 18

PZ18 Product Description

This model is ideal for larger spaces up to 100 SqM which means larger office spaces, communal areas as well as all vehicle interiors.

Product Specification

Model	Pro-Ozone 18
Rated Voltage	AC 220
Rated Power	150W
Ozone Output	10g/Hour
Net Weight	2.6kg
Package Dimensions	370mm x 210mm x 310mm

Settable times: 1 - 60 Minute Adjustable

100m²	60 Minutes
80m²	50 Minutes
60m²	40 Minutes
30m²	20 Minutes
20m²	15 Minutes
10m²	4 Minutes

Pro-Ozone 20

PZ20 Product Description

Our Top of the range Pro-Ozone 20 has the most ozone output of the range. Clean spaces upto 100sqM in just 30 minutes. The perfect commercial product to offer quick and thorough cleaning of vehicle interiors, offices and other workplace locations.

Product Specification

Model	Pro-Ozone 20
Rated Voltage	AC 220
Rated Power	150W
Ozone Output	20g/Hour
Net Weight	2.6kg
Package Dimensions	370mm x 210mm x 310mm

Settable times: 1 - 60 Minute Adjustable

100m²	30 Minutes
80m²	25 Minutes
60m²	20 Minutes
30m²	10 Minutes
20m²	8 Minutes
10m²	2 Minutes
